It is also believed that the Commonwealth will make a motion to have the case dismissed.

Funeral services by Elder E. W. Muncum. The L. & E. bridge carpenters, of which Mr. Casin was a member for several years, attended the burial. Mrs. Casin was a Miss Alexandre of Black Creek.

A PARSON'S NOBLE ACT.

They cured me of jaundice and liver troubles that had caused me great suffering for many years. For a genuine, all-around cure they excel anything I ever saw." Electric Bitters are the surprise of all for their wonderful work in Liver, Kidney and Stomach troubles. Don't fail to try them. Only 50cts. Satisfaction is guaranteed by Clay City Lbr. & Stave Co.

W. J. Bryan will give a non partisan address at High Bridge Sunday.

#### Big Cattle Sale.

Robert T. Gay of Clark county, sold sixty head of export cattle to Simon Weil at \$6.50. They averaged 1,432 pounds. J. L. Brown sold to same party 300 fat sheep, to be delivered October 1 at \$4 per head.

#### Burial Robe for Smoking Jacket.

A negro at Carlisle robbed an undertaker's shop of several burial robes and casket name plates. He used one of the robes for a smoking jacket, and had one of the name plates "At Rest" tacked on his door.

#### Kentucky's Coal Output.

Prof. C. J. Norwood in his report of the coal mined in the State for the year 1901, says there was mined for that year 5,324,712 tons. Of this amount Hopkins county produced 1,348,701 tons, which is more than 25 per cent. of the whole amount mined in the State. The increase last year over that of the year before was 304,037 tons.

#### Conference Adjourns.

The eighty-second annual Kentucky Conference completed its labors at London Tuesday night.

Rev. Horace B. Cockrell is given the work on this Circuit. Rev. J. H. Pence, former pastor, is sent to Campion, and Rev. S. M. Currier goes to College Hill. Rev. A. E. Redd is Presiding Elder. W. B. Ragan, a former Presiding Elder, has been assigned to Irvine:

#### Employees' Outing.

The L. & E. road Saturday placed a special train at the disposal of its employees, who spent the day in outing at Natural Bridge. There were twelve coaches in the train, and before it reached its destination the number of its occupants had reached twelve hundred. Over half of this number were from Lexington.

#### Double Track L. & N.

It is likely that the Louisville and Nashville will in the not very distant future be double-tracked. President M. H. Smith told a gentleman recently that the company was doing all the business now that can be handled on the single track. The road is well equipped with sidings and switches and the only way heavier traffic can be provided for is by putting down an additional track, which will likely be done.

#### New Kentucky Industries.

Among the new enterprises lately launched in Kentucky the following might be mentioned: Covington, 30,000 oil and gas company; Louisville, \$100,000 coal company; Olive Hill, big flouring mill; Owenton, \$150,000 planing mill; Paducah, \$80,000 heating plant and \$20,000 mining company; Riegel, \$50,000 oil company; Somerset, \$10,000 electric light plant and \$150,000 coal company; Vanceburg, telephone system.

#### Confederate's Home.

The building formerly known as Villa Ridge Inn, at Pewee Valley, seventeen miles east of Louisville, was chosen by the Board of Trustees for Kentucky's Confederate Home. Capt. S. H. Ford, of Owensboro, was elected commandant to have charge of the institution.

#### Rev. Sawyer Exonerated.

The trial of Rev. J. A. Sawyer, at London, the Dover pastor, who has been suspended for four months until conference, resulted in a complete exoneration. He was accused of unbecoming conduct and his name was coupled with that of a prominent widow of Dover. The thorough investigation which was conducted by Mr. Sawyer proved the charges against him to be without a semblance of foundation, and that he has been much maligned and persecuted. Mr. Sawyer was formerly presiding elder of this district, and is greatly beloved by the people here. It is stated that a libel suit will be instituted by the woman against those who have been prominent in the prosecution of the charge which has brought to her so much unpleasant notoriety.

#### Money-Making at Home.

The October Delin-er offers many valuable suggestions to women who would like employment at home and notes several instances in which a competence has been acquired by women who have followed such unusual lines of work as marking linen, sewing on skirt braids, making plum pudding, Salvato chips, paper dolls, favors for weddings and etc.

#### Sold for Vagrancy.

At Shellbyville Saturday, Fish-Millon, a negro convicted of vagrancy, was sold and likely to David Murphy, of color, for \$1.

Murphy, who is a prosperous farmer, says he will treat his "slave" kindly, and give him plenty to eat and wear, but he'll make him work even if he has to resort to the persuasive influence of the blacksnake whip.

The council of Harrodsburg has ordered a vote of the people to be taken at the November election for the issuing of bonds to the amount of \$66,000 for the purpose of establishing an electric light plant and putting in waterworks. It is quite probable that the municipal ownership question of these enterprises will carry at the election.

Attorney General Pratt holds that elections to fill vacancies in the offices of Police Judge and Magistrate can be held this year only in towns and counties embraced in the districts in which Appellate Judges are to be elected. Others must be filled by appointment by the Governor.

As a result of a boyish quarrel in Fayette county, W. Va., Jas. Nesbitt, aged 10, killed John Crouch, 15, with a stone which struck over the heart. Thomas Crouch, father of the victim, was so overcome by the tragedy that he fell dead.

Rural free delivery service has been ordered established October 1 at Gravel Switch and Riley post-offices, Marion county, one route each.

An order has been issued by the Postoffice Department, for the beginning of two free delivery mail routes in Clark County.

James Shields, an aged farmer, was found murdered in his cabin door in Washington county.

#### Over 5 Cents.

Ex-Governor W. S. Taylor, who has been in Indianapolis the past year or so, refused to pay his street car fare Saturday night, whereupon the conductor and mortorman attempted to eject him from the car. He reached to his hip pocket, but failed to produce a weapon. After some struggling, he paid his 5 cents and went on.

Incorporation articles were filed with the Secretary of State by the Owensboro Planing Company. It has \$150,000 capital stock.

President Roosevelt visited Lexington Saturday.

Eyes tested free and glasses accurately fitted. W. T. Webb.

## The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour, if it's in good condition. If the movement is sluggish, there's something wrong. It will move 3,558 miles in a year, and requires less than one-tenth of a drop of oil to make it run. But it needs that little badly. The least degree of friction on the bearings stops the motion. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay and satisfy you.

### ANNOUNCEMENTS.

#### CIRCUIT CLERK.

We are authorized to announce Mr. W. T. STRINGER, of Clay City, as a candidate for the office of Circuit Clerk of Powell County, subject to the action of the Democratic party.

We are authorized to announce Mr. Morgan R. LYLE, candidate for Circuit Clerk of Powell County, subject to the action of the Democratic primary to be held Dec. 6, 1902.

It has been demonstrated that a negro in Illinois receives better protection than a white man does in Kentucky. When a negro's life is threatened in the former State, the Governor sends troops to protect him, in Kentucky, when one is threatened, he packs his grip and moves along out of the way.

Editor W. P. Walton, of the Lexington Democrat, has withdrawn from the race for Railroad Commissioner. It seems that the machine was up against Mr. Walton and other candidates in favor of the present incumbent C. C. McCord. Mr. Walton would have made a good official, and we would like to have seen him elected.

The Curfew law which is now in force in a number of Kentucky towns, is the best known means to keep the boys out of meanness.

This law should be passed and enforced by every town in the State, Clay City not excepted. The future of our country depends upon the youths now growing up. More dangerous, bad habits are learned by boys out in town at nights than any other time. The morals of the Clay City boys certainly could be improved, or in other words there is room for them to be improved, and the Curfew law might prove to be of great aid in this line. Nothing can be lost by this law.

#### Church Entertainments.

An exchange very tersely remarks: "It is as difficult today to find the line that separates the church from the world as to define the Alaskan boundary. It does seem if Christianity is the solace of this life and hope of the life to come, that all else would be sacrificed by believers to support it, yet it is evident that the "world, the flesh and the devil" are, hourly called on to contribute to its support."

The female religionist racks her brain to devise money making schemes, until the only way to maintain interest in the church or raise money for the Lord is by continuous vaudeville.

People give money to get into society, or to enter to their appetites, or for amusements. One

thousand dollars can be raised quicker for church purposes by festivals, suppers, amateur theatricals, and such like entertainments, than to find a self-sacrificing Christian who will voluntarily lay one dollar on the altar of the Lord."

Mrs. Beckie Hall, wife of Berry Hall, died near here last night of typhoid fever. Burial at Salem grave yard to day. Mr. Hall is also down with same disease and is not expected to get well.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucus surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. Cheney & Co., Toledo, Ohio. Sold by Druggist, 75c. Hall's Family Pills are the best.

## Caught Again.

Charles Holmes, who broke out of Stanton jail for the second time about a month ago, was arrested in Lexington Sunday on a charge of drunkenness. Upon looking him over, he was identified as Holmes, who was caught there some time ago. Since his arrest Holmes tells this story: "Tom Cockrell, who is now confined in Stanton jail awaiting trial for the killing of Ben Hargis at Jackson, had a chance to escape with me but he refused to do so. It is further said that Holmes, Cockrell and a prisoner named Miller were all placed in a hallway to themselves. Just before sundown, and the time to be locked in their cells. Holmes went to his cell, brought out the pliers taken to him by a friend and pried the bars ajar. He begged Cockrell and Miller to go with him but they refused. No time was to be lost. The step of the jailer was heard on the outside. Holmes quickly sprang out and

fled as quickly as he could run. Jailer Bowen saw him and fired two shots at the fleeing man without effect. Holmes said he never once looked back and said that the reason he broke jail was that he did not want to lie in jail three months waiting for trial. He denies robbing the old negro.

Capt. C. C. Calbom, who has been in Washington in the interest of Kentucky's Spanish War claims, started last night for his home in Lexington. He expects the volunteers from the State to receive about \$150,000 in all. Claim agents are reported to be buying up the claims among the volunteers at a reduction, expecting to realize full value on them.

F. A. WERMAN, OF BALTIMORE, SAYS:

BALTIMORE, Md., March 30, 1901.

a full history of my case can be used at your discretion.  
About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialists of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

Then I saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you yearly and beg to remain

In many sections stock water is becoming very scarce.

"In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old-fashioned castor oil. However much they may abhor it, it is their best medicine for disorders of the bowels. In the more severe cases of diarrhoea and dysentery, however, Chamberlain's Colic Cholera and Diarrhoea Remedy should be given after the oil operates, and a quick cure is sure to follow. For sale by all dealers in Patent Medicine.

Our people who think the negro is worshipped in the North are somewhat mistaken for such is not the case. The Northern people don't know the negro as well as we do, so they think it is cruel to force him to go to school to himself, ride in a couch to himself, eat at a different table from the whites, and at all times occupy different apartments. However, as soon as these same people are given a thorough introduction to their colored brother, they begin to think and treat him as we do, and in most instances treat him much worse. Who ever heard of a town in the South where negroes were not allowed to reside? In Indiana there are several such towns, and now comes the report from Eldorado, Ill., that trouble is up in that town because of the establishment of negro normal and industrial institute modeled after the negro school at Tuskegee, Ala. A colored woman who came to locate in the town had her house stoned. A guard of soldiers which for many nights had guarded the woman's house fired into the mob, but they refused to disperse.

### Hay Fever.

This is the sneezing season, but the sneezing is not caused by a cold as is generally supposed.

The pollen from the rag and other noxious weeds affect the nostrils.

Nearly everyone is affected to a more or less extent. With some persons it becomes serious and affects the throat and lungs, producing asthma and a high temperature, when it is called hay fever. At one time this was considered a very fashionable disease and only the wealthy could afford to have it, but of recent years it

has gotten to be very common. There is but one remedy for it and that is to get away from the matter which produces it. Many sufferers go to mountain resorts for relief. When frost comes it destroys the pollen and the patients are relieved at home, unless they are relieved beforehand by dying.—Winchester Sentinel.

### Iron Mound.

It remains dry and news is scarce, but we will try to get up something for the correspondence column. Ye scribe has been at Rockerville building a house and has had but little time to gather the news. We will be at home in a few days, and then will try and do better.

Candy Wills and wife visited their daughter, Mary Davis at Winchester Saturday and Sunday.

One of our teachers, instructing pupils how to draw a map of North America, told them that the continent was shaped like a wiggle tail. Oh, my! I would like to see a wiggle tail with the Isthmus of Panama hanging to his tail.

The schools are progressing nicely in this vicinity, although some of the largest boys indulge in a fist-cuff once and a while. Now, teachers, and parents, talk to the boys and impress the fact upon their minds that they should set an example for the smaller scholars, and see how much better success good kind words with persuasion will procure than rod or rough talk.

There was quite an excitement among whisky sellers in this neck o' the woods last Saturday eve when Deputy U. S. Marshal Short and two assistants made an unexpected appearance in their midst and made a arrest, but the prisoner made his escape. We have heard of no further arrests. I. M. D.

"Wine of Cardui is indeed a blessing to tired women. Having suffered for seven years with weakness and bearing down pains, and having tried several doctors and different remedies with no success, your Wine of Cardui was the only thing which helped me, and eventually cured me. It seemed to build up the weak parts, strengthen the system and correct irregularities."

By "tired women" Mrs. Adams means nervous women who have disordered menses, falling of the womb, ovarian troubles or any of these ailments that women have. You can cure yourself at home with this great women's remedy, Wine of Cardui. Wine of Cardui has cured thousands of cases which doctors have failed to benefit. Why not begin to get well today? All druggists have \$1.00 bottles. For any stomach, liver or bowel disorder The Bedford's Black-Draught should be used.

"An excellent and never failing cure for nervous headache," says an apostle of physical culture, "is the simple act of walking backward. Just try it some time if you have any doubt about it. Physicians say that it is probably because the reflex action of the body brings about a reflex action of the brain, and thus drives away the pain that when induced by nervousness is the result of too much going forward. The relief is always certain and generally speedy. Ten minutes is the longest I have ever found necessary. An empty or long narrow room makes the best place for such a promenade. You should walk very slowly, letting the ball of the foot touch the floor first, and then the heel—just the way, in fact, that one should in theory walk forward, but which in practice is so rarely done."
